## RESOLUTION

of the report-back election Conference  
of the NGO Ukrainian Peace Council

Kyiv

April 12, 2023

Uniting public, non-governmental organizations, prominent public and political figures, scientists, artists, specialists in various societal areas, thinkers, creative individuals and people of goodwill, the Ukrainian Peace Council has purposefully engaged in peacemaking activities in Ukraine and abroad in the reported period. These activities are aimed at safeguarding peace and harmony in Ukraine and the world.

The Ukrainian Peace Council is an active participant in Ukrainian and international assemblies, forums, conferences, symposia, seminars, and events aimed at overcoming political confrontation and hostility between people.

To achieve these aims, the Presidium of the Ukrainian Peace Council worked flat out to engage Ukrainian public and non-governmental organizations, international organizations, as well as to consolidate society's efforts to promote peace and harmony in the country.

Russia's war against Ukraine has become the tragedy of millions of Ukrainians. Despite incredibly formidable challenges and losses, however, our country fights until victory is won.

The Government of Ukraine has ensured the effective work and maintenance of the functionality of key state institutions, while civil society has united to resist armed aggression and overcome its consequences.

The Ukrainian Peace Council strongly supports the efforts of state leadership, the Armed Forces of Ukraine, the public, and the international community of the democratic world, who have united for the victory of our country, and plans its activities in unison with government and world institutions aimed at achieving victory, peace and integration of Ukraine into the legal, democratic world community.

Today the Ukrainian nation has reached a higher level of the development of civil society's consciousness, dignity, awareness of national identity, aspirations to freedom and independence, earning respect and recognition of Ukraine by all progressive humanity.

Ukraine is giving a fitting rebuff to the enemy, demonstrating worldwide its indomitable courage, strength, faith in the values of freedom and democracy, and the ability to defend them. We have come closer to achieving the dream of many generations of Ukrainians – rejoining the family of free European nations.

The Ukrainian Peace Council calls on all people of goodwill and the international community to combine their efforts for the sake of Ukraine's victory and the establishment of peace and harmony worldwide!

In pursuit of this noble aim, the Ukrainian Peace Council has been working and will continue to work in accordance with the Action Program approved by the Conference, filled with the ideas and proposals put forth by advocates of peace.

Our victory will be a common victory of the entire democratic world!

Glory to Ukraine!
